### **OTHER WARRANTY CONSIDERATIONS**

On some window installations, caulking is used to seal the frames or trim package against water or air penetration. Therefore, caulking used in the installation of the window is not considered a part of the Hy-Lite® product, and therefore, is not covered under this Warranty. Caulking is normally considered a maintenance responsibility of the homeowner.

This Warranty is valid only if products manufactured by or approved by Hy-Lite® are used, but shall be void if accessory products not manufactured or approved by Hy-Lite® are installed which cause defects to occur in the Hy-Lite® products.

The warranty statements contained in this certificate set forth the only express warranties extended by U S Block Windows, Inc. manufacturer of Hy-Lite® Products and the provisions hereof shall constitute the purchaser's exclusive remedy for breach of this Warranty given under this certificate. U S Block Windows, Inc shall not be liable to property owner for incidental or consequential damages for breach of any written or implied warranty on the Hy-Lite® products.

Some states do not allow limitations on how long an implied warranty lasts, or the exclusion or limitations of incidental or consequential damages, so that the above limitation or exclusion may not apply. This Limited Warranty gives specific legal rights. There may be other rights which may vary from state to state.
